**SUPPLEMENTARY INFORMATION:****Drafting Information**

The principal persons involved in drafting this document are Robert Bloom, Chief, Bridge Branch, and Commander James Collin, District Legal Officer, Ninth Coast Guard District.

**Background and Purpose**

Regulations governing the operation of drawbridges are promulgated under the authority of 33 U.S.C. 499. As amended in 1988, the statute provides that any rules and regulations made in pursuance of this section shall, to the extent practical and feasible, provide for regularly scheduled openings of drawbridges during seasons of the year, and during times of the day, when scheduled openings would help reduce motor vehicle traffic delays and congestion on roads and highways linked by drawbridges.

Following notice and comment rulemaking, the Coast Guard promulgated a final rule on April 18, 1994, establishing a new rule for drawbridge operations on the Chicago River. On September 26, 1994, the United States District Court for the District of Columbia issued an order in the case of *Crowley's Yacht Yard, Inc., Plaintiff, v. Federico Peña, Secretary, United States Department of Transportation, Defendant*, (C.A. No. 94-1152 SSH), rescinding the Final Rule published on April 18, 1994, and reinstating the previous regulations found at 33 CFR 117.391. The regulations reinstated by the District Court provided for on-demand openings of drawbridges except during rush hour periods.

Further, those regulations contained no requirement for advance notice or the use of specified recreational vessel flotilla size. As a result of the Court decision and to gather data for future use, in the Fall of 1994, the District Commander issued a temporary deviation to regulations for the period October 11, 1994 through December 5, 1994, with a comment period through January 15, 1995. The deviation provided openings of bridges, with a twenty-four hour advance notice to the City of Chicago, from 7 a.m. to 7 p.m. on Saturdays and Sundays, and on Wednesdays between the hours of 6:30
